

Parameter	Specification
Product Name	BO-NET Multifunction Soldering Machine
Model	BN5206
Power	200W
Voltage	110VAC / 220VAC
Welding Mode	2 Modes (5 Methods)
Operating Temperature	0–45°C
Working Temperature	50 - 600°C
Operating Humidity	0–70% RH
Dimensions (L × W × H)	260 × 320 × 350 mm
Weight	10 kg

Supports Multi-Angle Soldering

More Practical: Slanted Soldering for Insertion-Type Components

Soldering to the Left
(e.g., for Aviation Connectors)

Soldering to the Right (e.g., for PCBs)

Free Tools

Bo-Net Solder
