

Universal Antibody Diluent

(WB007)

Product Overview

Universal Antibody Diluent is suitable for diluting all immunological antibodies. It contains no animal-derived proteins such as BSA, and no toxic preservatives such as sodium azide.

Components

Product Name	Cat. No.	Volume
Universal Antibody Diluent	WB007	500 mL

Storage Conditions

Store at 4°C; ship at ≤0°C. Valid for 2 years.

Precautions

1. This product is **for research use only** and shall not be used for clinical diagnosis, treatment, or other related fields.
2. For your safety and health, please wear a lab coat and disposable gloves during operation.

Instructions

1. Calculate the working concentration of the antibody and the required volume of antibody diluent according to experimental needs.
2. Add the antibody to an appropriate volume of antibody diluent, mix thoroughly before use (incubation of diluted antibodies at 4°C is recommended to extend antibody lifespan).
3. After use, store the diluted antibody at 4°C; it can generally be stored for more than 6 months.
