DALU TOOLS - CATALOGUE 2025

CUSTOMIZED SERVICES

WOODWORKING EXPERTS

GUANGZHOU DALU INDUSTRIAL PRODUCTS CO.,LTD., headquartered in Guangzhou, is a nationally recognized high-tech enterprise specializing in the woodworking cutting tool industry. The company integrates research and development, manufacturing, sales, and technical services.

Focused on the research and production of high-quality, high-performance cutting tools, DALU TOOLS provides customized products and tailored solutions for enterprises requiring high-precision and efficient machining. Its product range includes woodworking saw blades, milling cutters, drill bits, precision clamps, and more.

Through years of dedicated effort and scientific management, the company has steadily expanded its market presence, optimized its technical talent pool, and continuously enhanced its service capabilities. This commitment has earned wide spread recognition from numerous furniture manufacturers. Today, DALU TOOLS has evolved into a robust, well-known, cross-regional, and diversified group company pursuing a brand-oriented strategy.

To support its operations, DALU TOOLS has invested significantly in acquiring industry-leading manufacturing equipment. This includes state-of-the-art precision grinding centers, electrical discharge machines, laser processing machines, and precision testing equipment sourced from Switzerland, Germany, and other leading regions.

Complementing its powerful hardware resources, the company has recruited top technical experts across various fields, establishing a highly efficient and professional technical team. With a comprehensive production and manufacturing system, coupled with a robust technical service support system, DALU TOOLS has built an extensive sales and service network to respond promptly and effectively to customer needs.

Customizable Parameter Range:

◎ Minimum Diameter: 50mm

◎ Maximum Diameter: 1200mm

◎ Minimum Kerf: 1.5mm

◎ Minimum Plate: 1mm

We offer custom manufacturing of saw blades according to cutting materials:

◆ Solid wood

◆ MDF, Chipboard, Plywood, Hardboard, etc.

◆ Super hard wood-based materials.

We produce TCT saw blades and diamond saw blades. The diamond saw blades are highly recommended, as their cutting life is 20-50 times longer than that of TCT saw blades. They are suitable for cutting hard solid wood, MDF board, chipboard, plywood, hardboard, and also extremely hard non-metal materials.

Diamond Compression Router Bits

Customizable Parameter Range:

◎ Minimum Diameter: 10mm

◎ Maximum Diameter: 25mm

◎ Minimum Cutting Length: 20mm

◎ Maximum Cutting Length: 50mm

Diamond Compression Bits is good for cutting:

◆ Hard Solid wood

◆ MDF, Chipboard, Plywood, Hardboard, etc.

◆ Super hard wood-based materials.

This diamond router bits featuring an up-cut/down-cut compression design, this router bit provides an excellent finish on both top and bottom edges and boasts super longer life than conventional bits.

Customizable Parameter Range:

◎ Minimum Diameter: 3mm

◎ Maximum Diameter: 12mm

◎ Minimum Cutting Length: 10mm

◎ Maximum Cutting Length: 50mm

TCT Compression Bits is suitable for cutting:

◆ Soft Solid wood, Hard Solid wood

◆ MDF, Chipboard, Plywood, Hardboard, etc.

This TCT compression router bits featuring an up-cut/down-cut compression design, this router bit provides an excellent finish on both top and bottom edges, and boasts a longer cutting life.

Customizable Parameter Range:

◎ Minimum Diameter: 6mm

◎ Maximum Diameter: 150mm

◎ Minimum Cutting Length: 10mm

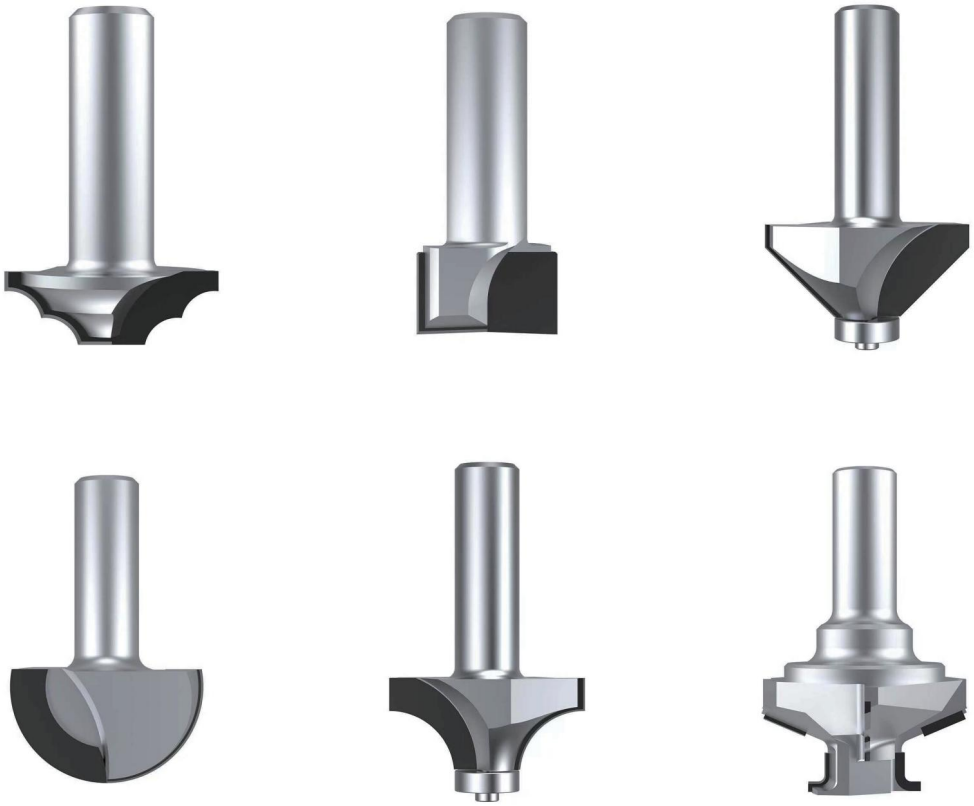

◎ Maximum Cutting Length: 50mm

Diamond Profiling Bits is suitable for cutting:

◆ Hard Solid wood

◆ MDF, Chipboard, Plywood, Hardboard, etc.

◆ Super hard wood-based materials.

We design and produce diamond profiling router bits based on work pieces shape, or cad drawing.

Diamond Edge banding Cutters

Customizable Parameter Range:

◎ Minimum Diameter: 50mm

◎ Maximum Diameter: 200mm

◎ Minimum Cutting Length: 20mm

◎ Maximum Cutting Length: 100mm

Diamond Cutters is suitable for cutting:

◆ Hard Solid wood

◆ MDF, Chipboard, Plywood, Hardboard, etc.

◆ Super hard wood-based materials.

We design and produce top tier precision diamond cutters for all kinds of edge banding machines.

Diamond Saw Hoggers

Customizable Parameter Range:

◎ Minimum Diameter: 200mm

◎ Maximum Diameter: 450mm

◎ Minimum Cutting Length: 10mm

◎ Maximum Cutting Length: 100mm

Diamond Saw Hoggers is suitable for cutting:

◆ Hard Solid wood

◆ MDF, Chipboard, Plywood, Hardboard, etc.

◆ Super hard wood-based materials.

We design and produce diamond saw hoggers based on work pieces shape, or cad drawing.

Customizable Parameter Range:

◎ Minimum Diameter: 2.5mm

◎ Maximum Diameter: 100mm

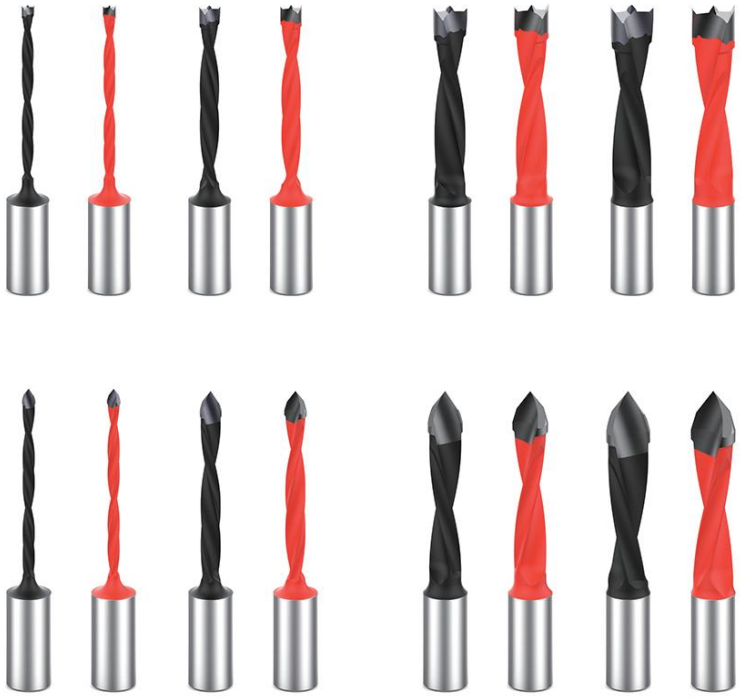

◎ Standard Shank Diameter: 10mm

◎ Standard Total Length: 57mm, 70mm

Enhanced type TCT Drill Bits is good for cutting:

◆ Soft Solid wood, Hard Solid wood

◆ MDF, Chipboard, Plywood, Hardboard, etc.

This enhanced type TCT drill bits provides an excellent finish on hole edges, and also long life.
The Standard design is 2 flutes, and new design 3 flutes is also available.
