Choose Your Downrod Length

It is recommended to have at least 7" of clearance underneath your ceiling fan blades. For ceiling heights under 9', you should be able to use the downrod included with your fan. For higher ceilings please see adjacent chart for recommended downrod length. For lower ceilings, we recommend a semi-flush, flushmount or hugger fan that is designed to deliver excellent airflow with maximum clearance.

What can you do on the Smart app?

- Adjust fan speed to low, medium, or high
- Change the white hues and brightness level
- Operate and monitor the on/off switch
- Set a timer or weekly schedule
- Activate and monitor the countdown timer
- Turn notifications on or off
- Access the online user guide
- Name your various devices for easy monitoring
- Create "groups" and have all your Smart products automate and work together
