

Kind tips for folder installation

Kind tips

1

Cleaning preparation

Remove oil stains and dust, wait for complete drying

2

Adhesive installation

Tear off the release paper, press in position for 30 seconds, place files after 24 hours

3

Screw reinforcement

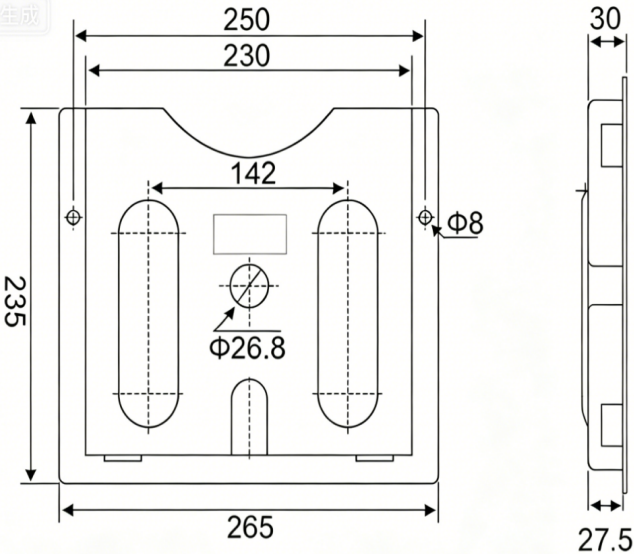

Metal cabinet doors/vibration environments, prefer screw fixation to prevent falling off

4

Position suggestion

Upper right corner inside the door, do not block the lock, observation window, switch button
