六边形吸音板

Hexagon Acoustic Panels

This texture uses hexagonal tiling. This hexagonal pattern contains regular hexagon shapes with each row offset in order to interlink with one another. It is one of the three regular tilings of the Euclidean plane and is a significant structure in nature. Our hexagon, typically crafted from medium density fiberboard, offer a minimalist Nordic look while also aiding in sound wave diffusion. A seamless wood texture with the ability to be installed as both wall and ceiling panelling.

这款纹理使用了六边形拼接。这种六边形图案包含规则的六边形，每一行都相互偏移，以便相互连接。它是欧几里得平面的三种规则倾斜之一，也是自然界中的一种重要结构。我们的六边形通常由中密度纤维板制成，具有简约的北欧风格，同时还有助于声波扩散。

3D造型吸音板

Hexagon Acoustic Panels

The 3D design acoustic wall panel range is a beautifully designed decorative wall and ceiling panel which boasts high-quality acoustic properties. The panels can be easily applied to both walls and ceilings. The colour range is produced with a luxury quality, smooth laminate finish. Lamella strips with a clean, modern appearance are mounted onto a uniquely designed, recycled acoustic felt material. Fast and simple installation allows you to quickly transform any space.

三维设计隔音墙板系列是一种设计精美的墙壁和天花板装饰板，具有高质量的隔音性能。墙壁和天花板均可轻松安装。该色彩系列采用优质光滑的层压板饰面。具有简洁、现代外观的层压板条安装在设计独特的可回收隔音毛毡材料上。安装快捷简单，让您迅速改变任何空间。
