COMMODITY PARAMETERS

Information

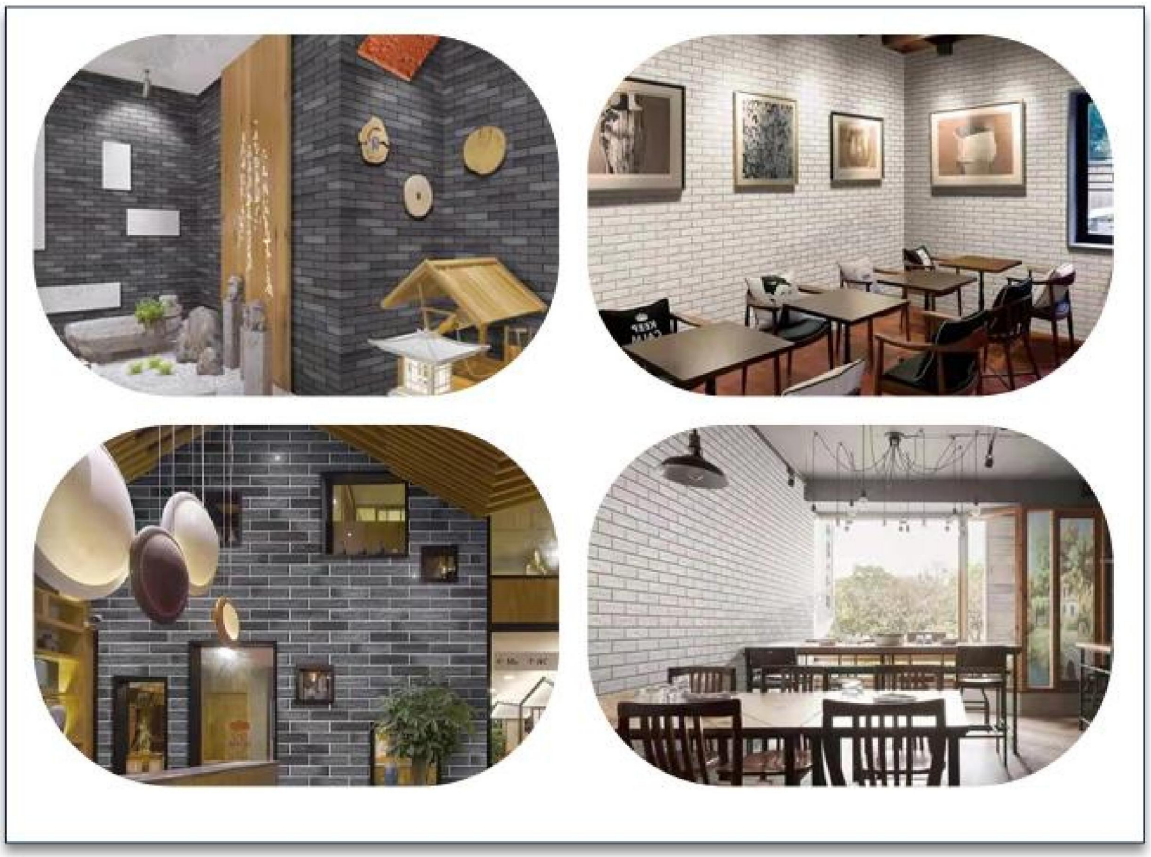

MAXIMUM SPECIFICATION	1.2m wide*50m/volume
THICKNESS	2-3mm
ONE SQUARE WEIGHT	2.7kg
PRODUCT MATERIAL	Natural mineral sand, synthesis of water-based materials, green environmental protection

Size

300*100	600*100	1200*100	300*300
150*600	200*600	300*600	600*600
900*600	1200*600	2800*600	3000*600
3000*1200	6000*1200	Geometry	Custom graphics

COMMODITY CHARACTERISTICS

Twelve characteristics of
"Dazhen porcelain" flexible facing brick

Super flexibility It can be paved at corners and cylindricalSuch complex modeling	**Thin and light** Light weight, never falling off,The system is safe and reliable
Good air permeability Conducive to water vapor balance,Prevent hollowing, freezing and thawing	**Waterproof and impermeable** Face and seam can block Infiltration of rain, snow and water
Good weather resistance It can withstand strong winds and rainstorms,High temperature resistance, frost resistance	**Impact resistance** With good mechanical strength,Scratch and shock proof
Good fire resistance German flame retardant and fire protection standard Din 4102 Class B1	**Stain resistant and self-cleaning** Strong stain resistance, wind blown wiperYou can clean yourself as new
Rich color Rich colors can be prepared according to needsThousands of different colors	**Will not fade** Non fading iron oxide pigment with strongUV resistance
Simple construction Shorten working hours and improve work efficiency, Low comprehensive cost	**Green environmental protection** Environmental protection, no pollution in production and use,Non toxic and radiation free

Four characteristics of special adhesive for "Dazhen porcelain"

Product Name : Textured Sandstone Chips

DA ZHEN CI

Product material : mineral sand and water-based pure elastic composite material

Features :

① Anti-mildew, water-proof, color-resistant ② Decorative sense: bright and colorful, with texture
③ Anti-peeling, anti-defect, reusable ④ Easy to install Tile bonding method Easy to install \
⑤ Thin material, 3mm thick, can be installed on the curved wall of large tiles

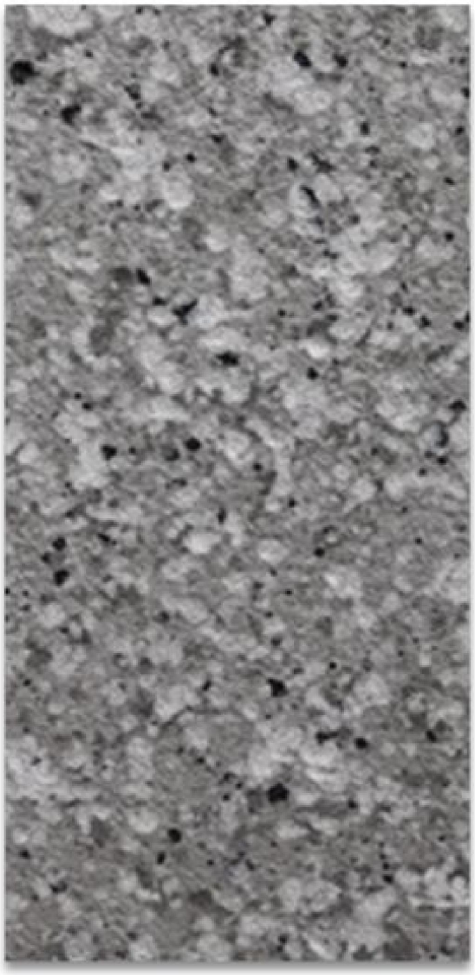

Product label: 36 colors, customers can DIY

Product size: size standard 27, optional specification customization

Product use: The exterior wall and interior wall have a strong three-dimensional effect, and can replace traditional decorative materials such as marble and ceramic tiles.
