

T Chair by YourSeat®

Design of thoughtful

By observing the daily work needs and psychological needs of the users deeply and meticulously, we reorientated the appearance of the large back frame working chairs on the straight workstation, and designed a protective cover with T-shaped mark on the back around the waist of the human body. Besides, There is a brand logo cover designed at the bottom of the chair, that makes it convenient to code the fixed assets of each chair or to establish the relationship between the user and the office chair. T chair has patent from USA(Q814810.29592784), EU(003743970-0001), India(294552) and China(201630552603.2).

A chair is not only a seat in space, but also an important ornament

In the whole space, customers not only need to consider the daily use of the staff; but also take into account for the beauty. A good designed chair becomes an important decoration in the whole space and form part of a parsimonious space.

Both visible and hidden, we do the best.

We are entrusted by our customers to translate their trust into the products needed for our work. In the process of manufacturing and selection of every detail, we are more attentive, cherish this trust. Larger diameter wheels, larger radius base, higher quality cylinder, no-wood panel seats, new nylon in plastic, and so on.
